K9s Search Bartholomew County Courthouse for Contraband

Although metal detectors uncover many items at the Bartholomew County Courthouse, contraband remains a huge issue.

“Whether it’s illicit drugs, drug-related paraphernalia, tobacco products or other prohibited items, contraband among prisoners remains a constant test for our Courthouse correctional officers.”

Sheriff Matthew A. Myers.

Deputy Matt Bush and K9 Diesel search the Courthouse to detect any type of contraband.

The Chamberlain Award is named in honor of Joshua Chamberlain, an American college professor, who volunteered to join the Union Army during the American Civil War. Chamberlain is best known for his gallantry at the Battle of Gettysburg for which he was awarded the Medal of Honor. Deputy Cooper is a U.S. Army retiree.

“We work closely with BCSC and Flatrock Hawcreek and, although our schools have a very good Safety Plan, we still need the community’s help.” “We don’t want to cause undue alarm, but we all need to do everything we can to keep our children safe”.

Deputies Recognized at 2019 Indiana Sheriff’s Association Conference

On November 6, 2018, Bartholomew County Sheriff’s Deputies were called to a house fire in the area of 7800 E/475 S. Dispatch advised that the residents were possibly still inside the home. Deputy Andrew Dougan and Deputy Robert A. Cooper were first on the scene. A woman told deputies that her husband was still inside the burning house.

Deputies Dougan and Cooper went inside, got on their knees and went in about 10-feet before the smoke became too thick for them to continue. They then went to the back of the house, entered through the garage – again the smoke was very thick but they could hear the man calling to them. They told him to keep talking as they eventually made their way through the thick smoke where they could barely see the shape of a man. Although the victim was disoriented and suffering from smoke inhalation, Deputies Dougan and Cooper walked him out.

At the time of the incident, Deputy Dougan, 26, a former volunteer firefighter, had been with BCSO for just under 5 years. Deputy Cooper, 38, was a newcomer to the Sheriff’s office but had spent 20 years in the military including combat overseas.

BCSO Reserve Unit

BCSO’s Reserve deputies are dedicated volunteers who assist and augment merit deputies with everything from road patrol to special events.

All reserve deputies are certified law enforcement officers sworn in as deputies by Sheriff Myers. Most have full-time jobs outside the Sheriff’s Office and donate their law enforcement time at no salary cost to taxpayers.

BCSO’s Reserve Unit is a uniformed support unit and is under the supervision of Road Patrol Commander Dave Steinkoenig. Reserves are trained as deputy sheriffs in all aspects of law enforcement functions and they work alongside merit deputies.

Property/Evidence Room

Our agency has a fiduciary and legal obligation to store and protect thousands of individual pieces of evidence and property. Equally important is our obligation to return property to its rightful owner or to facilitate the legal disposition of property and evidence.

BCSO ensures that all evidence is properly packaged and stored to allow for laboratory analysis and, if required, court presentation, transporting and/or properly disposing of property that is no longer needed for court purposes – this can include return to owner, auction, destruction or donation.

BCSO uses a bar code system that allows evidence to be quickly and easily managed. Evidence can be inventoried and audited for tracking the location/movement of items.

This allows BCSO’s Property Room manager to track which items are up for review and which items are scheduled to be destroyed. Multiple evidence items can be entered in one submission.

Crime Scene Investigations

Sergeant Jim Stevens is BCSO’s lead Crime Scene Investigations Technician.

CSI requires Sergeant Stevens to collect, preserve, package, transport and document any/all physical evidence left at a crime scene.

Bartholomew County Water Rescue/Recovery

The Bartholomew County Water Rescue & Recovery Team (BCWRR) is a special unit that responds to all water rescue calls within Bartholomew County.

BCWRR is organized for rapid rescue response, responding quickly, gathering information and deploying rescuers to perform a rapid and effective search and retrieval.

The number of water rescue calls received are usually higher as calls come in as a different nature when, in fact, they are actually water rescue calls.

Sheriff Matthew A. Myers Elected to IN Sheriffs’ Youth Ranch Board

May, 2019: Bartholomew County Sheriff Matthew A. Myers and former Marion County Sheriff Frank Anderson have been elected by fellow lawmen to help develop and lead the non-profit Indiana Sheriffs’ Youth Ranch.

Recently purchased with private donations, the Youth Ranch will be a permanent venue for sheriffs and deputies from across the state to mentor future law enforcement officers, bond with at-risk kids and help young witnesses and victims of crime – including siblings, sons and daughters of fallen first responders.

“Sheriff Myers and Former Sheriff Anderson will be ideal board members for our Youth Ranch,” said ISYR President John Layton, also a former Marion County Sheriff. “Our deputies, police officers and state troopers want the right young people to go into law enforcement for the right reasons, mentored by the right people in the right way. Matt and Frank are exactly the right people.”

January, 2020: Along with: Allen County Sheriff David Gladieux, Boone County Sheriff Mike Nielsen, Clark County Sheriff Paul Harden, LaPorte County Sheriff John Boyd, Marion County Sheriff Frank Anderson (Retired) and Ripley County Sheriff Jeff Cumberworth, Bartholomew County Sheriff Matthew A. Myers was selected as one of eight Trustees for the Indiana Sheriffs’ Youth Ranch.

Hoosier children who have been victims of crime, and kids who want to be law enforcement officers when they grow up, now have a place to come together, thanks to the purchase of the 62-acre property in western Indiana.

Through private donations, Indiana Sheriffs and Deputies bought the property, in the spring of 2019, in Brazil, IN, to create the Indiana Sheriffs' Youth Ranch.

Former Marion County Sheriff John Layton, who now serves as board president for the ranch, says the goal is to give at-risk kids a chance to enjoy summer activities.

"Kids that would never have a chance to have a fishing pole in their hand or walk a trail in the wilderness – it’s those kids that we want to send in the right direction instead of them making the wrong decisions” Layton said.

Sheriff Matthew A. Myers Appointed to: National Sheriff’s Association Homeland Security Committee

The National Sheriffs’ Association announced the appointment of Bartholomew County, Indiana Sheriff Matthew A. Myers to the NSA Homeland Security Committee.

“Sheriff Myers will be networking closely through the NSA with the other 3100 elected Sheriffs across America, bringing a professional “Heartland” perspective to this vast responsibility of keeping our Counties, States and Nation safe”, said National Sheriffs’ Association president John Layton.

The National Sheriffs’ Association is dedicated to raising the level of professionalism among those in the law enforcement field. NSA is a key player in shaping national policy on critical criminal justice and homeland security issues on critical criminal justice and homeland security issues important to
the nation's sheriffs, deputies and police in the halls of Congress, US Courts and at the White House.

Stephen P. Luce, Executive Director of the Indiana Sheriffs’ Association said: “As Executive Director of the Indiana Sheriffs’ Association it is an honor to know that the National Sheriffs’ Association has appointed Bartholomew County Sheriff Matt Myers to the NSA Homeland Security Committee.” “Sheriff Myers appointment will continue the strong presence that ISA and Indiana Sheriffs have with the NSA”. “Sheriff Myers dedication and knowledge in Public Safety over the years allows him to be a perfect fit for the National Sheriffs’ Association’s Homeland Security Committee.” “Sheriff Myers continues to lead the way for his community in Building Communities Trust!

Sheriff Matthew A. Myers Appointed to: National Sheriff’s Association Drug Enforcement Committee

America's sheriffs play a critical role in keeping imported drugs out of our communities.

As an association that represents more than 3,000 elected sheriffs nationwide, the National Sheriff’s Association understands and has been vocal on the dangers that importing foreign medicines would pose to citizens and law enforcement officers. If not intercepted at the border, dangerous counterfeit prescription drugs become an interior enforcement issue. Opening our borders to drug importation would increase the threat of illegitimate products entering the United States, fueling criminal organizations’ activities and profits while significantly worsening the opioid crisis.

The opioid crisis has grown substantially worse due to powerful synthetic opioids including fentanyl and fentanyl analogue-laced counterfeit pills being produced by illegal trafficking organizations that reach the United States through Canada and Mexico. The Centers for Disease Control and Prevention reports that among the estimated 70,200 drug overdose deaths in 2017, the sharpest increase occurred for those related to fentanyl and fentanyl analogs.

Leading experts, including four former FDA commissioners and former FBI Director Louis Freeh have actively opposed drug importation, citing patient safety risks and substandard drugs as just a few of many key concerns.

The DEA warns that exposure to even minimal amounts (approximately 2 milligrams) of fentanyl can have deadly consequences for law enforcement officers, their canines and other first responders.

NSA Opposes Drug Importation Legislation

The National Sheriffs’ Association sent a letter to President Trump on August 8, 2018, requesting that the “Administration carefully weigh the potential harmful impact of drug importation on public safety and public health; and take drug importation off the table of consideration.

During the Conference, the sheriffs attended a White House briefing, visited with federal officials and met President Trump at the White House.

Sheriff Myers met with Indiana Senator Todd Young to discuss important issues to Bartholomew County and to particularly talk about drugs in/around our County.

Sheriff Myers and Indiana Senator Mike Braun spoke about the safety of Hoosier communities and the devastation drugs have caused Hoosier families.

The Indiana Sheriffs delegation met with Congressman Greg Pence.

Law enforcement attending the Conference had an opportunity to visit the White House and President Trump. A resident saw this on CSPAN and circled Sheriff Myers.
**Training Division**

BCSO’s Training Division is responsible for the initial training and continuing skills development of all agency personnel. To fulfill these requirements, BCSO is dedicated to creating and providing quality training programs that reflect the needs and changing responsibilities of the Sheriff’s Office.

Theft 2015 – 2019

If your home was damaged by a fire or a burglar stole your valuables, would you be able to provide deputies or your insurance company with a complete list of all the items damaged, destroyed, or stolen? Having an up-to-date personal property home inventory will help.

Downloading a Personal Property Inventory form on an annual basis will allow you to keep an accurate list of your personal belongings. This form may also be used to help you determine the amount of insurance you need to cover your contents. Go through your home room by room and make a list of the items in it. Try to fill in the information requested and be as detailed as possible. Taking pictures or a video of the contents of your home is also very important. Pay special attention to the most valuable items. Take shots from multiple angles on those items. The contents of covered outbuildings should also be listed.

Download your Personal Property Inventory Form

In an effort to assist residents in documenting information about valuables, BCSO provides a “Personal Property Inventory” form that can be downloaded at: www.bartholomew.in.gov/sheriff#forms
A person arrested in Bartholomew County may be brought to the Bartholomew County Jail for incarceration. The current facility opened in 1990. In 2008 an addition was added to accommodate additional housing. BCJ has a self-contained laundry, meal preparation and many medical services are provided within the facility.

Because of new legislation requiring jails to hold inmates sentenced to the Department of Corrections with a balance of 365 days or less and the trending of an increasing jail population, the Bartholomew County Sheriff’s Office completed a case study on opening the older part of the jail to add additional bed spaces.

The Bartholomew County Jail is operated by a corrections staff that includes classification officers, transportation officers and administrative corrections officers. CO’s are responsible for ensuring that statutory requirements from the state are met for all inmates. These requirements include booking inmates in/out, passing meals, supervising and dispensing medications and performing security detail among other duties.

All jail officers must successfully complete the jail officer training within a year of their appointment date.

The course is designed to provide new jail officers with the basic information necessary to allow them to function in their facilities and is intended to be supplemented by annual in service training provided by their respective departments.

Routine shakedowns are conducted by BCSO Jail staff. All contraband found is confiscated and removed for the safety of staff, inmates and visitors.
"Our Correction’s staff go above and beyond on a daily basis.” “These jobs are hard and our CO’s are certainly “unsung heroes” who don’t always get the appreciation they deserve”.

Residents Encounter Christ (REC) Program

Sheriff Myers and the REC program he was instrumental in bringing to BCJ were awarded a RALi Grant – funds intended to further works which are helping Indiana’s inmates reclaim their lives upon release.

REC is a 3-day weekend event. In separate sessions for male and female inmates, local volunteers offer an opportunity for participants to change their lives.

REC has been offered in the Bartholomew County Jail since 2017. The program (hopefully) is presently expanding into Decatur, Jackson and Brown Counties, and Sheriff Myers hopes to see it implemented across the state.

Over a weekend in October, more than 30 inmates were baptized at the Bartholomew County Jail. The baptism are part of the “Residents Encounter Christ” (REC) program.

REC will continue to be there for these men and woman after they are released from jail.

REC is a voluntary program for inmates. No one is pressured to attend the sessions; however, Bartholomew County Sheriff Matthew A. Myers says: “if an inmate at BCJ tells me that he/she wants to have a relationship with Jesus Christ, I’m going to do all I can to make sure they have that opportunity”.

Deputy Mark Helms, Sheriff Myers, Sergeant Zack Morey and Pastor Dave Burnett lead REC activities in September.

BCJ Receives Full Body Scanner

Following much discussion with the Bartholomew County Commissioners and the Bartholomew County Council about the purchase of a full body scanner, on August 23, 2019, Sheriff Myers finalized the policy along with Chief Deputy Major Chris Lane, Jail Commander Major John Martoccia and attorney Jeff Beck.

All incoming inmates are now screened for contraband by going through a full body imaging (similar to an x-ray) machine.

"We will actually be able to see inside someone's body to make sure they haven't swallowed something and there's no way we could know this without having this machine," said Jail Commander, Major John Martoccia.

This scanner will help jail staff to cut down on drugs and other contraband that people might be trying to smuggled inside.

Major Lane, Sheriff Myers, CO Sergeant Courtney Fisher and Major John Martoccia

Bartholomew County Councilman Jorge Morales takes a look at (and discusses the benefits of) the body scanner.
Sheriff Myers is committed to pooling resources and sharing information which will elevate public safety in all areas of Bartholomew County. The key to crime reduction is maintaining and building partnerships throughout the community.

**Joint Narcotics Enforcement Team (JNET)**
This Team includes deputies from the Bartholomew County Sheriff’s Office, officers from the Columbus Police Department and a Bartholomew County Prosecutor.

This relationship has led to additional partnerships with other state and federal agencies to collectively attack the supply of drugs in/around Bartholomew County:

- Drug Enforcement Agency (DEA)
- Federal Bureau of Investigation (FBI)
- Bureau of Alcohol Tobaccos and Firearms (ATF)
- U.S. Marshall Service
- Department of Homeland Security
- U.S. Postal Service Inspectors

**TRIAD**
Partnership among law enforcement, older residents and community groups to promote older adult safety. TRIAD is designed to foster education and prevent consumer fraud while promoting safety issues.

**Alliance for Substance Abuse Progress (ASAP)**
BCSO is an active participant in ASAP’s goals of eliminating the stigma associated with addiction, building an understanding of substance misuse as a public health crisis and encouraging broad community-wide support for the programs and facilities needed in Bartholomew County.

**911 Center (Dispatch)**
Our Bartholomew County 911 Center provides a vital link of emergency services between citizens and first responders. This is accomplished through professional and courteous public safety practices while keeping the safety of all first responders in mind at all times. This service is provided in the most cost effective manner possible, recognizing that the citizens of this county are funding this operation.

**Drug Take Back Event**
On August 26, BCSO and ASAP (Alliance for Substance Abuse Progress in Bartholomew County) held a Drug Take Back event at The Commons.

This event provided a safe, convenient and responsible way for residents to dispose of expired, unused and/or unwanted prescription drugs.

**Mission:** To develop and implement a comprehensive youth and adult strategy to educate, to prevent and to reduce the incidents of alcohol and other drugs in Bartholomew County.
Joint Narcotics Enforcement Team (JNET)

BCSO’s greatest focus and “number one” priority is drug eradication – particularly targeting people who provide illegal narcotics to Bartholomew County residents.

Mission

To intensely focus on the apprehension of danger fugitives.

The Joint Narcotics Enforcement Team, a combined unit of the Bartholomew County Sheriff’s Office, the Columbus Police Department and the Bartholomew County Prosecutor’s Office is proactively targeting the manufacturing and abuse of dangerous drugs in Columbus and Bartholomew County.

JNET Highlights

JNET was taken to the “next level” when a Bartholomew County Deputy Sheriff was assigned to the Drug Enforcement Administration (DEA) Task Force.

“JNET and your Bartholomew County Sheriff’s Office will never stop pursuing those who are distributing and abusing dangerous drugs in Bartholomew County”.

The Bartholomew County Sheriff’s Office announced its partnership with TRIAD in 2016. TRIAD and BCSO are working together to provide our older residents better safety and a better quality of life.

**Project Lifesaver**

On April 30, 2019, Bartholomew County Sheriff’s Deputies and Columbus Fire Department personnel received Project Lifesaver training.

Project Lifesaver is a program of proactive involvement and specialized operations that respond to incidents of individuals with Alzheimer’s, Autism, Down Syndrome, and related disorders who have wandered from a safe location and cannot find their way back to safety.

Bartholomew County Sheriff’s Sergeant Jim Stevens obtained a grant from the Custer Nugent Foundation to get the Project Lifesaver program up and running.

Four Deputies and three Columbus Fire Department personnel were trained on the use and are certified to train others as Electronic Search Specialists.

**Project Lifesaver Training**

Initially, 50 transmitters were purchased and will be assigned to clients. A total of 6 receivers, that can pinpoint the location of the transmitters were also purchased.

The transmitters can be detected up to 3 miles away. Three of the receivers are kept at the Sheriff’s Office and three were assigned to Columbus Fire Department.

There is no cost to the client, however there are a few guidelines that must be met in order to become a client.

Interested persons should contact TRIAD at triad@bartholomew.in.gov

November, 2019: Dave Coffman stepped down as TRIAD Director.

The Bartholomew County Sheriff’s Office would like to thank Dave for his service to our agency and to Bartholomew County residents.
Major Chris Lane completed one of the toughest challenges available to local law enforcement officers: the FBI National Academy #278.

Major Lane graduated after attending a 10-week training session at the National Academy in Quantico, Virginia.

There is a highly competitive process local law enforcement officers must go through to be selected for this honor. That process includes a nomination by a supervisor; interviews with the candidate and co-workers to determine leadership skills and abilities; a background check; a determination of physical fitness; and the support of former National Academy graduates.

During the ten weeks of training, local executive-level law enforcement officers spend most of their time in the classroom. Chief Deputy Lane’s National Academy classes included Critical Incident Leadership, Crisis Negotiations, Contemporary Issues in Police and Media Relations, Essentials for Law Enforcement Leaders, Behavioral Science for Law Enforcement Leaders, Fitness in Law Enforcement, and Contemporary Issues in Law Enforcement.

Each year, the FBI sponsors four sessions of the National Academy. Each session includes about 220 local law enforcement officers from throughout the United States and around the world.

After retiring from the Columbus Police Department, in 2015, Major Lane brought more than 20 years of solid law enforcement, security and staff management experience to his position as BCSO’s Chief Deputy.

He is a graduate of Vincennes University and has completed numerous courses with the Police Executive Leadership Academy and the Drug Enforcement Administration. He attended and served as a police officer at Indiana University.

Major Lane receives his “yellow brick” after completing the final test of the fitness challenge, fondly known as the “Yellow Brick Road”. The Yellow Brick Road is a grueling 6.1 mile run through a hilly, wooded trail built by Marines.

Along the way, participants must climb over walls, run through creeks, jump through simulated windows, scale rock faces with ropes, crawl under barbed wire in muddy water, maneuver across a cargo net, and more.

When (and if) a student completes this difficult test, they receive an actual yellow brick to memorialize their achievement. The course came to be known as the “Yellow Brick Road” years ago, after the Marines placed yellow bricks at various spots to show runners the way through the wooded trail. The overall fitness challenge began at the National Academy in 1981 and has evolved over the years.

Major Lane completed the course in 1.5 hours.

“I am extremely proud of Chief Deputy Lane and I am very thankful he was able to participate in this once in a lifetime opportunity for law enforcement leaders in this nation.”

“...I am looking forward to his return to the office where the information, knowledge, and skills he gained at the FBI National Academy will be used for the betterment of our organization and the community we serve.”

Civil Process

Many people ask the question what is Civil Process and what is the Sheriff Office involvement?

Civil Process is the service of the court papers such as summons, subpoenas, garnishments, civil suit, small claims filings, ex-parte and protection orders, eviction notices and juvenile papers or any other document to be served for court purposes.

The Sheriff Office serves (on average) more than 3,500 papers per year. Indiana law requires certain fees to be collected for each served paper. Several attempts will be made on each service before any papers would be return for non-service.

A Six Sigma analysis addressed the Civil Process service and County Council approved our hiring two civilian Process Servers reducing the amount of time that merit deputies spent serving civil papers and increasing the time they now spend on calls for service and traffic enforcement.

“Our goal was to reduce the extreme amount of time that merit deputies were spending on serving civil papers and increase the time they could spend patrolling and proactively policing in county rural areas.”

Sheriff Sales

Beginning in April, 2019, Bartholomew County Sheriff’s Sales began being processed by SRI, Inc., Indianapolis.

Contracting BCSO’s sheriff sale process through SRI’s Sheriff’s Sale program has eliminated the unnecessary administrative burden placed on BCSO’s Sheriff Sales/Sex Offender Coordinator and has allowed him to allocate more time toward sex offender enforcement functions.

BCSO Sheriff’s Sales continued to be conducted at the Sheriff’s Office, 543 Second Street, Columbus.

Funding for SRI came from fees collected from the Sheriff Sales.

Sex Offender Compliance Sweep

On November 14, 2019, Deputies with the Bartholomew County Sheriff’s Office partnered with members of the U.S. Marshal Sex Offender Task Force to conduct a county-wide check on registered sex offenders.

Deputies conducted surprise offender checks throughout Bartholomew County to determine the validity of information provided by individuals currently registered with Bartholomew County’s Sex and Violent Offender Registry.

If determined to be non-compliant, individuals could face additional charges. This sweep was conducted in addition to regular checks that are conducted by Deputies throughout the year.

Fiscal Responsibility

During the budgeting process, Sheriff Myers and Division Commanders spend several weeks gathering information, obtaining costs and drafting proposals into detailed financial documents to account for every budgeting request.

BCSO’s leadership evaluates every proposal against the value added it would provide in helping our agency fulfill its mission.

BCSO projects are driving a data-based approach for key decisions. This allows BCSO to provide County Council with the best information possible – including the impact of their decisions, so they can make the best possible budgeting decisions.

County Hires Jail Drug Treatment Coordinator

After county and city officials agreed to provide funding, Bartholomew County Jail officials hired a jail addiction treatment program coordinator who was tasked with developing BCSO’s program curriculum.

The goal is to reduce recidivism by offering inmates with substance abuse problems evidence-based treatment and to help them develop life skills to re-enter the community after being released from BCJ.

Inmates who successfully complete the program can then enroll in other programs already in place: Women Recovering with a Purpose (WRAP) and Recovery Enables a Life for Men (REALM) programs.

“Our goal is to reduce recidivism by offering inmates with substance abuse problems treatment and to help them develop life skills to re-enter the community after being released from BCJ.”
